

Anaba

A WIND TURBINE ON THE PROPERTY HARNESSES THE ANABATIC WINDS TO GENERATE ELECTRICITY FOR ANABA'S TASTING ROOM, WINE STORAGE, OFFICE OPERATIONS AND IRRIGATION PUMPS FOR THE TWO ESTATE VINEYARDS.

2010 SONOMA VALLEY TURBINE PINK

VINEYARD AND WINEMAKING NOTES

The Grenache grapes for the Rose program were harvested three weeks before those used in our red wine production. We harvest our Rose grapes earlier so the resulting wine is low in alcohol and higher in acidity, creating a refreshing and balanced wine that one craves on a warm spring day. The grapes go directly to press and the resulting salmon colored juice is transferred to a stainless steel tank where fermentation takes place at cool temperatures. This wine is stored in stainless steel fermentation up until the January bottling.

TASTING NOTES

Anaba's Sonoma Valley Pink wine is a 100 case production made from 100% Grenache grapes. The aromas are of red grapefruit, perfectly ripe strawberries, and a light tropical note. The palate is well structured, refreshing with crisp acidity, fruity with hints of fresh ginger. This Rose is ready to enjoy as an apertif or with your favorite springtime dish.

172 Cases produced \$22/ bottle retail
